Georgia Project Firstline

Struggling with CPO Management?

Get the latest updates from Georgia Department of Public Health experts. Carbapenemase-producing organisms (CPOs) are an important group of multidrug-resistant pathogens that pose a serious public health concern.

Join two experts from the Georgia Department of Public Health as they share what is happening with CPOs across the state. Stay informed and bring your questions!

NOVEMBER SESSION:

Carbapenemase-Producing Organisms (CPOs) in Georgia: Epidemiology, Outbreak Investigations, and Public Health Response

Nov. 19, noon-1 p.m.

Register **here** or scan the QR code.
