

Georgia Project Firstline

We want to learn about your infection control needs.

Georgia Project Firstline (GPFL) is helping healthcare workers understand the 'why' behind infection prevention recommendations and best practices. GPFL's mission is to support the advancement of infection prevention and control practices in the healthcare system.

Please encourage all healthcare workers to complete this [Learning Needs Assessment Survey](#).

Take advantage of CDC's Project Firstline free resources, which are [designed to empower healthcare workers](#) to think critically about infection control. Learn about Georgia Project Firstline by connecting with your region's [infection prevention and control education expert](#) (IPCEE).

Meet Children's Healthcare of Atlanta's (CHOA) Georgia Project Firstline IPCEE

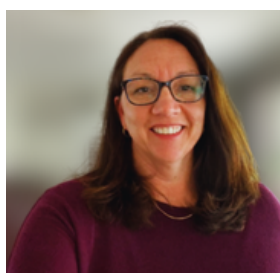

Tanya Taffe, MPH, CIC, is a dynamic infection prevention epidemiologist with over 20 years of healthcare expertise. She has a passion for patient safety, and she is sharing her expertise with all Georgia healthcare facilities to give our kids a healthier tomorrow. Have a pediatric infection prevention question? Connect with Tanya.

Congratulations on achieving certification in infection prevention!

Thank you so much! Project Firstline assisted me by providing resources for the exam and taking the exam.

Gabbie Black, MPH, CIC | Epidemiologist

We have been so privileged to have Project Firstline funding at Children's. Project Firstline assisted me by providing resources for exam preparation and examination fees.

Vicki Anderson, MPH, RN, CIC | Epidemiologist

Peggy McGee, BSN, RN, CIC
