U.S. CENTERS FOR DISEASE
CONTROL AND PREVENTION

Let Georgia Project Firstline help you.

We want to learn about your infection control needs so that we can target and provide resources.

Georgia Project Firstline (GPFL) is helping healthcare workers understand the 'why' behind infection prevention recommendations and best practices. GPFL's mission is to support the advancement of infection prevention and control practices in the healthcare system.

Please encourage all healthcare workers to complete this [Learning Needs Assessment Survey](#).

Connect with your region's [infection prevention and control education expert](#) (IPCEE) to obtain infection prevention educational resources.
