

Georgia Infection Prevention Collaborative Webinar Series

The Georgia Department of Public Health (DPH) and the Georgia Hospital Association are excited to invite you to an infection prevention webinar series. In support of improving patient care, this series seeks to increase infection prevention knowledge in Georgia.

Presented live from August 2026 through July 2027, the monthly series features subject-matter experts from DPH. Sessions will be recorded and available for on-demand viewing on [GHC911](#).

Information for the August and September sessions is below. **Starting in October**, the webinar will be held on the third **Thursday of each month from noon-1 p.m. ET**. Please forward this to colleagues.

Candidozyma auris (formerly Candida auris) **Aug. 27, noon-1 p.m.**

Get the most up-to-date information about what is happening with C. auris in Georgia. Learn about an easy educational tool to help healthcare workers understand the risk and take action to stop the spread of C. auris. At the time of the call, [join here](#).
